

COVID-19 Update

Dear clients and visitors,

Times Change Women's Employment Service continues to closely monitor all Public Health advisories about the COVID-19 virus. We are committed to ensuring our clients continue to access employment assistance to the best of our capacity during this time.

As of Tuesday March 17th, we will temporarily provide our delivery of services online/by phone until Monday April 6. This measure is in place so clients can stay home and still be able to access individual service. If you are a new client seeking job search assistance, you can email women@timeschange.org for assistance, and please allow up to 48 hours for a response.

If you are currently working with an employment counsellor, educational counsellor, or job developer, you may contact them directly by email. Our staff email list is available at www.timeschange.org. If you are registered for a workshop, your place in the workshop will be honoured as best we can once we re-open.

Please take care of yourself and others. We have a collective duty to listen to the recommendations of public health agencies and take every precaution you can during this time.

If you develop symptoms related to COVID-19, please contact TeleHealth Ontario immediately at 1-866-797-0000. There are also testing centres for the COVID-19 virus in the GTA:

- [North York General Hospital](#) (open now)
- [Michael Garron Hospital](#) in Toronto (open now)
- [Women's College Hospital](#) in Toronto (open now)
- [Scarborough Health Network — Birchmount Hospital](#) (opening date: Monday, March 16)

Sincerely,

Times Change Women's Employment Service
